Gene Modified Cell Therapies

Editorial

1349 Editorial

CRY Cruz, M Andreeff, J Barrett

Overview

1351 Gene-modified, cell-based therapies—an overview

AB Powell, K Williams, CRY Cruz

Review Articles

1360 Cellular therapy for sickle cell disease

A Abraham, DA Jacobsohn, CM Bollard

1370 Engineering hematopoietic stem cells toward a functional cure of human immunodeficiency virus infection

J Wang, MC Holmes

1382 Realism and pragmatism in developing an effective chimeric antigen receptor T-cell product for solid cancers

AZ Gad, S El-Naggar, N Ahmed

1393 Review: Current clinical applications of chimeric antigen receptor (CAR) modified T cells

MB Geyer, RJ Brentjens

1410 Improving efficacy of cancer immunotherapy by genetic modification of natural killer cells

RA Burga, T Nguyen, J Zulovich, S Madonna, L Ylisastigui, R Fernandes, E Yvon

1422 Expanded and armed natural killer cells for cancer treatment

N Shimasaki, E Coustan-Smith, T Kamiya, D Campana

1435 Genetically modified mesenchymal stromal cells in cancer therapy

EK Sage, RM Thakrar, SM Janes

1446 Gene-modified dendritic cell vaccines for cancer

RS Abraham, DA Mitchell
