

## Table of Contents: Volume 25 Issue 4 April 2023

### Review

- 353 Stem cell-derived exosomes in bone healing: focusing on their role in angiogenesis**  
D Irfan, I Ahmad, I Patra, R Margiana, MT Rasulova, R Sivaraman, M Kandeel, HJ Mohammad, ZH Al-Qaim, MA Jawad, YF Mustafa, MJ Ansari

### Short Report

- 362 Mesenchymal stem/stromal cells from a transplanted, asymptomatic patient with Fanconi anemia exhibit an aging-like phenotype and dysregulated expression of genes implicated in hematopoiesis and myelodysplasia**  
CL Haga, SV Boregowda, CN Booker, V Krishnappa, J Strivelli, E Cappelli, DG Phinney

### ISCT Committee Paper

- 369 Scientific venturing for early-stage professionals (ESPs), a key concept in the innovation ecosystem**  
A Caicedo, P Robayo, E Morales A Moyano, D Barba, K Zambrano, K Castillo, T Maron-Gutierrez

### Full-Length Articles

#### Basic Research

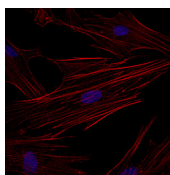

- 375 Soluble components from mesenchymal stromal cell processing exert anti-inflammatory effects and facilitate ischemic muscle regeneration**  
W Huang, CA Kraynak, EC Bender, RP Farrar, LJ Suggs
- 387 Assessment of anti-inflammatory bioactivity of extracellular vesicles is susceptible to error via media component contamination**  
SM Kronstadt, LH Van Heyningen, A Aranda, SM Jay

#### Translational Research

- 397 Novel xeno-free and serum-free culturing condition to improve piggyBac transposon-based CD19 chimeric antigen receptor T-cell production and characteristics**  
M Sanyanusin, S Tudsamran, R Thaiwong, S Tawinwung, N Nishio, Y Takahashi, N Hirankarn, K Suppipat

#### Clinical Research

- 407 Adverse effect of donor-specific anti-human leukocyte antigen (HLA) antibodies directed at HLA-DP/-DQ on engraftment in cord blood transplantation**  
T Jo, Y Arai, K Hatanaka, H Ishii, A Ono, N Matsuyama, J Mori, Y Koh, F Azuma, T Kimura
- 415 Prognostic impact of the simple L-index and absolute lymphocyte count early after allogeneic hematopoietic stem cell transplantation**  
H Kubo, O Imataki, T Fukumoto, T Ishida, YH Kubo, J-i Kida, M Uemura, H Fujita, N Kadowaki
- 423 Day 4 collection of granulocyte colony-stimulating factor-mobilized HLA-matched sibling donor peripheral blood allografts demonstrates no long-term increase in chronic graft-versus-host disease or relapse rates**  
G Booth, Y Yu, RP Harlan, CE Jacoby, KM Tomic, SE Slater, BE Allen, EM Berklich, RJ Knight, J Dela Cruz, R Fu, A Gandhi, RJ Cook, G Meyers, RT Maziarz, LF Newell

**Cover Image:** Human dermal fibroblasts stained with the F-actin marker, phalloidin (red). Nuclei are labeled with DAPI (blue). Photo Credit: Mohammad Bilal (Canada).

## Table of Contents (continued)

---

### Manufacturing

- 432** **Manufacturing and validation of Good Manufacturing Practice—compliant regulatory dendritic cells for infusion into organ transplant recipients**  
AF Zahorchak, ML DeRiggi, JL Muzzio, V Sutherland, A Humar, FG Lakkis, Y-MS Hsu, AW Thomson

- 442** **Optimizing a fully automated and closed system process for red blood cell reduction of human bone marrow products**  
VA Remley, A Collins, S Underwood, J Jin, Y Kim, Y Cai, M Prochazkova, L Moses, KM Byrne, P Jin, DF Stroncek, SL Highfill
